### Personal Mission:

I hope to achieve scholastic and gymnastic excellence through my college years. I am passionate about gymnastics and am so appreciative of the opportunity I have to learn from my fellow gymnasts and my coaches.

I would like to pursue a career that allows me to both be challenged intellectually, and also to benefit others and help them to do good in the world. While I am not yet sure exactly what that path will look like, I am excited to find it.
